IN EAST PALESTINE.

Coxey's Army Meets With a Cold Reception.

STRINGENT ORDERS ISSUED

Instant Dismissal Will Follow Any Attempt at Lawlessness—Twenty-Five Recruits Added to the Army—A New Commune Formed—Recruits Coming From Texas and Other Western States.

EAST PALESTINE, O., March 31.—After a day of ovations the commonwealth had rather a cool reception at East Palestine. Trustee Duss of the Harmony society was in town to see the arrival of the army. The visit, he said, had no significance, but he and Coxey went east together on the afternoon train. Coxey went to Pittsburg, but will return today.

Very stringent orders were read out by Marshal Browne after supper and the men have been placed under severe discipline. Drunkenness, obscenity and fighting will result in instant dismissal and authority has been given the under marshals to enforce this, and it will be sustained.

The secret conclave on Thursday night which gave rise to so much speculation was a meeting at which the under marshals passed resolutions which intimate that men not marching with the army but riding on freight trains will not be fed.

If Marshal Smith's orders are not obeyed with alacrity the culprit will forfeit a meal. All crooks will be dismissed. Two men began fighting at the midway halt at Watertown and were instantly dismissed.

The camp had a military appearance for the first time last night. Browne's orders were typewritten and read to the men, which was never done before. The camp was on the fair grounds, and the men spent the night under canvas, singing around the campfires until far into the night. Twenty-five recruits, five being nappers from New Brighton, joined and took their badges.

The midday meal will be at Darlington and the camp named Marion Butler, is near New Galilee.

Owing to the number of new recruits joined since the commonwealth left Columbiana, a new commune, making three, has been formed. They are the California, Chicago and Coxeyana.

Browne says a band of pretenders are marching one day ahead gathering food and clothes, which they represent is for the commonwealth.

Danger Awaits Them in Pittsburg.

PITTSBURG, March 31.—Superintendent of Police O'Mara will make it warm for the Coxey recruits in this city. He issued a general order that all tramps be arrested on sight and sent to the workhouse. "I expect this commonwealth, as they call it, to pass through the city quietly. If they don't," says O'Mara, "we will look them up."

Will Camp on Private Dailzell's Farm.

FAYETTE SPRINGS, Pa., March 31.—On Tuesday, April 10, the army of the commonwealth is billed to encamp near Laurel Summit, Pa., and it is understood this means on Private Dailzell's farm near here. It contains 300 acres, mostly in grass, well watered and with commodious buildings and plenty of wood at hand for fuel.

COXEY'S ARMY IN TEXAS.

The State Capital Reached, but They Were Not Allowed to Stop.

AUSTIN, March 31.—A detachment of Coxey's army, 470 strong, reached here on a special train from Sierra Blanca, Tex., via San Antonio, with General Lewis Fry as chief of brigades. Fry wanted to march the men to Governor Hogg's mansion to thank him for getting them out of Sierra Blanca, but the police prevented that, compelling the men to remain in the cars.

The men tell of fearful suffering since leaving Los Angeles, from cold, hunger and weary tramping. The left here for Longview, after a short stop. There the Texas Pacific will take them to its junction with the Iron Mountain road, which is expected to transport them to St. Louis.

"Katensin" Is Their Pass Word.

DENVER, March 31.—Commander Bert Hamilton has succeeded in mustering out about 800 men instead of his 1,000 in his silver legion. They will leave Denver for Washington as soon as they can capture a couple of boxcars in a freight train. "Katensin" is their pass word.

CRISP DECLINES TO BE SENATOR.

He Telegraphs Governor Northern That He Can Not Accept the Appointment.

WASHINGTON, March 31.—Speaker Crisp yesterday evening notified Governor Northern by telegraph of his declination of the appointment of United States senator for the unexpired term of the late Senator Colquitt.

In his telegram Mr. Crisp says a very large majority of the Democratic members of the house have united in a request that he continue as speaker for the remainder of the session, and, although deeply grateful to the governor, and although sacrificing a cherished ambition, a sense of duty impels him to decline the appointment.

Hard Lines For Horsethieves.

MOORE'S HILL, Ind., March 31.—Farmers through this part of Indiana are now thoroughly organized to cope with horsethieves. This was illustrated by an alarm spread from Manchester a few days ago. Within one hour from the time of the alarm the report was spread through the adjoining country and roads were being guarded.

FILIBUSTERED ALL DAY.

A Couple of Sensational Created in the House, But Nothing Done.

WASHINGTON, March 31.—When Speaker Crisp ascended the rostrum yesterday, he was given a rousing reception from members on both sides of the house, the demonstration lasting fully a minute. The battle of the previous evening was promptly renewed by Mr. Reed on a challenge of the correctness of the journal in failing to show Mr. Payne's point of order on the question of but one teller acting.

On a rising vote the journal was approved and on a call of yeas and nays the previous question was ordered and debate limited to 15 minutes on either side. After a speech by Mr. Reed regarding the speaker's ruling Thursday, Mr. Reed's motion to amend the journal was voted down. The vote on approving the journal showed a quorum voting.

Mr. Reed's motion to adjourn was decided out of order and the speaker declined to entertain an appeal and again refused to state the ground of refusal, holding that no member has the right to inquire the grounds of a decision any more than a lawyer has to demand the same thing of a judge on the bench.

"That looks very much like tyranny," remarked Mr. Reed, sarcastically.

The next episode was the overruling of Mr. Boutelle's point of order that the president's message vetoing the seigniorage bill could not be read, the house having made the contested election cases the special order. Again the speaker refused to entertain an appeal. The veto message was then read. Mr. Bland gave notice that next Tuesday he would move to pass the bill over the veto.

During the rollcall on Mr. Burrows' motion to reconsider the vote by which the house had declared Mr. Joy not entitled to his seat, Mr. Reed, standing near the clerk's desk, said he would like to be permitted to see the rollcall taken. This was resented by the speaker, who sharply ordered Mr. Reed to take his seat, and directed the sergeant-at-arms to enforce order, as Mr. Reed did not move fast enough to suit.

"This is entirely unnecessary," said Mr. Reed, looking the speaker in the eye.

"It is not," replied the speaker.

"Instead of taking your seat, you respond every time."

"Certainly I do, because the chair has attacked me," said Mr. Reed, now thoroughly aroused.

There seemed to be an element of personal hostility in the clash between the two house leaders. Later on the speaker protested that he had not understood Mr. Reed to prefer a request for permission to stand by the clerk's desk, and with this semi-apologetic explanation the incident closed. The rollcall now disclosing the lack of a quorum, the house took a recess until 8 o'clock.

The night session of the house was devoted to private pension bills, and adjourned at 9:30.

DUNN'S REVIEW OF TRADE.

More Active Tone in Business, With Still Brighter Prospects.

NEW YORK, March 31.—R. G. Dunn & Company's weekly review of trade says: The more active tone in business this week is in part due to the belief that no disturbance of the currency will be permitted, but other causes helped forward improvement. Slowly, but yet quite perceptibly, the force at work increases. The approach of spring compels the dealers to replenish stocks, and the aggregate of orders, if smaller than usual at this season, is distinctly larger than in January or February.

Except in speculative markets, prices do not recover, and in some instances have gone lower, but the absence of sensational records inspires hope that the bottom may have been reached. Business, though small, is exceptionally cautious and safe, and its slow gain is more encouraging than a heavy expansion.

Wheat rose briskly with reports, due every year about April 1, that great injury has been sustained. Later accounts were better and prices fell, closing two cents higher for the week. Western receipts for four weeks have been only 6,829,003 bushels, against 11,522,745 last year, but exports are very small.

Corn receipts for four weeks have been 12,773,745 bushels, against 1,995,115 last year, so that the tonnage of the two grains taken together is as large as a year ago.

Pork products have sharply advanced, though corn but little.

Cotton has advanced an eighth, the weekly movement being more favorable to holders, though 200,000 bales have already come into sight in excess of the entire crop, according to some so-called investigations.

Failures for the week number 203 in the United States, against 160 last year, and 30 in Canada, against 280 last year. The liabilities for three weeks of March thus far reported have been \$10,061,911, of which \$4,698,118 were of manufacturing, and \$4,235,093 of trading concerns. The returns so far indicate a smaller aggregate for March than for February.

Laundry Girls in an Explosion.

PROVIDENCE, March 31.—The guests at the Narragansett hotel were startled by the sound of an explosion. A second later there were a series of cries from the laundry, and when the door was opened two girls lay upon the floor in an unconscious condition. Another girl was wiping the blood from her face. The three girls had been at work beside a steam wringer when, without warning, it burst. Pieces of the flying iron struck the girls in the face and head. One is seriously injured.

Death of Captain Doddridge.

CHARLESTON, W. Va., March 31.—Captain Philip Doddridge, for many years pilot on the Kanawha and Ohio rivers, died yesterday, aged 55 years. He was a grandson of ex-Congressman Philip Doddridge.

STANDPIPE COLLAPSE

Without Warning the Huge Structure Falls.

DEATH AND DESTRUCTION.

One Person Instantly Killed, Three Others Fatally Injured and Twelve Others Less Seriously Hurt—Several Houses Floated Away and Others Badly Damaged—Property Loss of \$30,000.

PEORIA, Ill., March 31.—Shortly after 11 o'clock yesterday morning the citizens of Peoria were startled by a dull roar that came from the direction of the west bluff. In a few minutes a fire alarm had been turned in. Shortly after the patrol wagon and ambulances were dashing up the street to the corner of Bourland and College avenue. This is the spot where the great standpipe of the Peoria Water company was located.

When within two blocks of the place all were obliged to stop. Great volumes of water were rushing through the streets, houses were floating away, fences were demolished and four feet of water was rapidly spreading over the vicinity and flooding the sewers of the city.

All was confusion and terror. Investigation showed that the massive standpipe, 129 feet in height and 25 feet in diameter, had collapsed. No warning was given to the people in the vicinity, but with a few sharp cracks and a dull roar 1,500,000 gallons of water were precipitated to the ground.

Several workmen were engaged on the tower at the time it fell, and how they escaped instant death is miraculous.

The pipe stood in a vacant lot used by the children as a playground. One of them, Frank Hogan, was caught between the mass of steel and literally crushed into the earth.

Wild rumors were immediately afloat, and distracted mothers and wives could be seen gathering in the vicinity. Thousands of citizens came from all parts of the city, and workmen at once set to work as soon as the water had run off sufficiently.

The great pipe lies crashed like an egg-shell across the vacant lot and into the street, five or six houses across the street being swept from their foundations and carried many feet away. One large house is in splinters.

The property loss will not be less than \$30,000, and beside the death of the one lad mentioned three others of the injured will die.

A list of casualties is as follows: Frank Hogan, caught beneath the falling tower and instantly killed.

Frank Caldwell, frightfully injured and will die.

W. D. Norris, terrible gash in temple; will die.

William Kennedy, badly crushed and cut; will die.

The following persons were injured, but will probably recover:

Rollo King.
Charles Littlefield.
Howard Anderson.
Clyde Howell.
Charles Needham.
Frank Caddon.
John Huber.
Alfred Gross.
Hazel Isom.
Mrs. J. B. Trapp.
Mrs. William McGrath.
Bertha Norman.

CHINESE CAN NOT VOTE.

Judge Dallas Holds They Can Never Be Naturalized.

PHILADELPHIA, March 31.—Judge Dallas has filed an opinion in the United States circuit court holding that Chinese can not be naturalized. Judge Dallas said: "It is necessary to refer only to act of congress of May 6, 1882, entitled 'An act to execute certain treaty stipulations relating to Chinese.' By its 14th section it is enacted 'that hereafter no state court or court of the United States shall admit Chinese to citizenship,' and I can not accept the position taken in argument that this section became inoperative upon the expiration of 10 years after the passage of the act. Its first section, and the substitute for the section, approved July 5, 1884, relate only to 'counting of Chinese laborers to the United States.' The 14th section forbids the admission of Chinese to citizenship at any time after the passage of the act. It is still in force and is determinative of this case. The application is refused."

Unknown Man Murdered.

DENISON, Tex., March 31.—The watchman's shanty at the junction, near here, of the Missouri, Kansas and Texas and Houston and Texas Central burned just before dawn Friday. After the flames were extinguished the body of an unknown man, charred and with the skull crushed, was found in the ruins. He had been murdered and the cabin fired to conceal the crime. No clew.

Strike Still On.

ALEXANDRIA, Ind., March 31.—The strike of 400 operators at the Lippincott chimney house is still on, all efforts to compromise being so far unsuccessful. The proprietors refused to repair finishing machines for the workmen. The federation of unions in this county is endeavoring to effect a settlement.

MILTON, Ind., March 31.—The carriage works, the planing mill and two flouring mills are now running full time with a full force man.

SHE KNEW JEFFERSON.

Old "Granny" of the Same Name Is 108 Years Old.

NEW YORK, March 31.—A continuous stream of people passed through to the rear basement of the dingy tenement at 147 West Twenty-seventh street Friday. They had a pleasant mission to perform, that of giving greeting to "Granny" Jefferson, a colored woman, who had reached the ripe old age of 108 years. Granny Jefferson has been blind for the last three years, and for one month past has been bed-ridden and too feeble to raise herself without assistance. She is supported by her youngest daughter, who is 65 years old, and who not only takes care of her mother, but also nurses an invalid sister who was born 77 years ago. Granny Jefferson has 20 grandchildren and 50 great-grandchildren, and expects to welcome a member of the fifth generation next month. Her memory is clear, and she delights to tell of her old slavery days under Peter Jefferson in Virginia. She also remembers well when Thomas Jefferson, or "Massa Tom," went to Washington as third president of the United States. Granny experienced religion 57 years ago, and can talk for hours at a time upon grace and redemption.

BLOODSHED AND RIOT FEARED.

Extreme Excitement in the Connellsville Coke Region.

PITTSBURG, March 31.—There is great excitement throughout the Connellsville coke region over the proposed strike next Monday for a 12 1/2 per cent advance over the present scale of wages. The operators are determined to resist the demands and are closing down their works, pending the settlement of the strike.

A Uniontown dispatch says: Much depends upon the Frick employees, who say they will stick to their agreement and not come out. If so, they will either be forced out, or their resistance will in a large measure cripple the strike. Bloodshed and riot seems inevitable and the authorities are alarmed.

Five Days' Later News From Hawaii.

SAN FRANCISCO, March 31.—The barkentine S. N. Castle arrived from Honolulu yesterday with news five days later than that brought by the Mariposa. The only event of note since the Mariposa's departure was an agreement between the government upon a formal union by means of mutual concession. The organization was named the American Union party. The royalists are very quiet, and if they have any policy they have declared none.

Voting on the Wage Question.

BRAZIL, Ind., March 31.—The conductors and brakemen of the Chicago and Indiana Coal road met Thursday night and the engineers and firemen yesterday to consider the acceptance of the modified reduction recently made by the officials. A decision was withheld until a poll of the road can be taken, thus giving those who were not present a vote. It is believed the officials' offer will be rejected.

Mennonites Settling in Illinois.

VANDALIA, Ill., March 31.—Large numbers of Mennonites are coming from the east and settling in Fayette county. They have bought up nearly all the farms in Setton township, one of the richest townships in the county. Some 70 families have already arrived and others are coming in almost daily.

Dr. McCosh's Eighty-Second.

PRINCETON, N. J., March 31.—On Sunday next Rev. Dr. James McCosh, the noted Presbyterian divine and for nearly 20 years president of Princeton university, will celebrate the 83d anniversary of his birth. The students will fittingly commemorate the event.

Overdue Steamer Arrives.

SAN FRANCISCO, March 31.—The long due steamship Bancroft arrived here yesterday. The vessel left Swansea 105 days ago with cargoes of coal. Much anxiety had been felt for her safety. The slow trip was due to the foul condition of the ship's bottom.

Killed His Wife, Children and Himself.

DOLBEVILLE, N. Y., March 31.—Fritz Klotzer, a shoemaker, killed his wife and four children at his home last night and then committed suicide. He had been out of work for a long time and despondency is supposed to have led to the deed.

REIGN OF RIOTING.

Serious State of Affairs at Darlington, South Carolina.

STATE MILITIA CALLED OUT.

An Attempt to Enforce the Dispensary Laws Results in Murder—Two Citizens and Two of Governor Tillman's Spies Killed and a Number of Others Wounded—Dispensary Destroyed.

WILSON, N. C., March 31.—There was a serious riot at Darlington, S. C., growing out of an attempted enforcement of the dispensary law. The citizens of Darlington and two of Governor Tillman's spies have been killed and a number of spies and citizens wounded. The country in this vicinity has been thoroughly aroused and a large number of people have turned out to hunt down the spies.

The trouble grew out of an attempt to search private houses for liquor. The citizens protested against this and the spies yielded in the face of the excitement and agreed not to search private premises. They also promised to leave Darlington, although the force, 17 in number, had been reinforced to 37. They had gone to the depot when they were set upon by some town boys. Out of this grew an alarming riot which spread rapidly.

Not many citizens were at the depot. Two of them, Paul Decegro and Billy Floyd, had an altercation. Constable McLendon had some words with a Mr. Redmond about the Floyd-Rogers fight. Some say Redmond cursed McLendon and McLendon fired at Redmond. Others say that McLendon fired at Rogers and the bullet passed through Redmond's throat, killing him instantly.

Firing then became general and citizens hurried to the front of the encounter. It was found that the constables had scattered to the woods and four men were lying on the ground—Redmond, Frank Norment and Constables Pepper and McLendon. Pepper was shot through the heart, McLendon through the stomach and is living but will die. Norment is dead.

Chief of Police Dargan was shot in the side and several citizens were wounded. Norment, who was killed, had taken no part in the riotous proceedings in the last few days and had gone to the depot on business of his own.

The arms of one of the militia companies have been taken by the citizens and a neighboring militia company is reported not to be in sympathy with the governor.

The people of Charlotte, Sumter and Darlington agreed to support each other in resisting the search of private houses. Last night, in accordance with the agreement, armed parties of men from town and country assembled in each of the above cities and picketed all the railroad stations from which the spies can escape by rail.

Mountain men are scouring the woods for the spies, who are armed with Winchester and will fight for their lives. The Darlington guards are under arms, endeavoring to preserve the peace, but the trouble has outgrown their control. Sheriff Scarborough is powerless, and is under threats of being killed by the citizens if he interferes. One of the wounded constables is in Darlington jail, protected by the local military company.

There is great excitement all over the state, and the inability to procure liquor at this critical juncture is a good thing for the public peace. In one instance at Columbia, S. C., the excitement was at fever heat and threats were made against the governor and of burning the dispensaries. Governor Tillman will uphold the law no matter at what cost and will call on the country companies to force obedience should the city military continue to refuse to act.

At this hour the constables are said to be surrounded in the swamp and slaughter is momentarily expected.

Constable Brennan, the officer who left Darlington by the Charleston, Sumter and Northern railroad, is now here. He reports to the governor that his detachment was fired upon by the mob as the train was pulling out and at the same time the detachment was about to leave, and in sight of the military was set upon by the citizens.

State Dispensary Destroyed.

WASHINGTON, March 31.—A dispatch from Florence, S. C., says that a mob entered the state dispensary at 2:05 a. m. and destroyed the entire stock of liquors.

BLOCK COAL MINERS.

Secret Meeting Held to Fix the Wage Scale For Next Year.

BRAZIL, Ind., March 31.—The operators of the block coal district of Indiana met in this city in secret session yesterday, to fix the scale for the year beginning May 1, making a 20 cent per ton reduction and place this district on an equality with the bituminous fields of this state and other competitive fields.

Other cuts are said to be in contemplation to enable the Indiana operators to recover the market that cuts in other states have taken from them. The scale will be submitted to the miners on May 1, and may be accepted, the miners anticipating a reduction.

WHEELING, March 13.—The management of the Belmont blast furnace of the Wheeling Iron and Steel company, has issued orders to put fires in the furnace next Wednesday, and the old hands have been notified to be ready for work on that day. The furnace has been idle since May and will start on Bessemer pig iron for the use of the Wheeling steel works of the same company. The output is about 200 tons a day, and 250 men are employed when running full.

WAGES AT HOME.

"The census bulletin giving the statistics of manufactures by States explodes completely the protection theory that tariff, regulate wages," says the New York World.

"If this contention were true, wages in the same industries ought to be substantially uniform throughout the States subject to the same tariff law. That this is not the case the tables published in the Tribune conclusively prove. The variation is greater between different States of our Union than it is between the average of wages in this country and the average in England.

"It is shown by this bulletin that the mean average wages paid in the entire country in all manufacturing industries except mining and quarrying, for 1890, was \$484 per hand.

"Among the States falling below this average were these: Alabama, by \$110; Georgia, \$177; South Carolina, \$217; Maine, \$134; New Hampshire, \$101; Wisconsin, \$92.

"Among the States exceeding this average were Colorado, \$236; Montana, \$238; Massachusetts, \$10; New York, \$65; Pennsylvania, \$8; Wyoming, \$284.

"The obvious lesson of these figures and of the rest of the table is that wages depend upon the productivity of the workmen, the demand for labor, the efficiency of labor organizations and the cost of living, not upon a tariff law which may permit but never constrains protected employers to pay more than the market rate for wages.

"Wages in manufacturing industries are higher in some States than in others, and are higher in this country than in Europe, because the workmen produce more—that is, are more intelligent, have better machinery or work longer hours—or because there is a greater demand for their labor or a higher cost of living and a stronger union of laborers to maintain their just demands.

"Intelligent workmen know this. The census bulletins prove it."

A CHANCE FOR CAPITALISTS.

There are 114 coal veins along the line of the proposed new railroad from Morehead to Caney, Morgan County. This immense coal field is probably nearer to Cincinnati than any other in the land. It can be easily reached by converting Flemingsburg's narrow gauge railroad into a standard gauge and extending it from Hillsboro to Morehead and then to Caney.

Here's a good opening for the L. and N. or the C. and O. to secure a paying branch line. Cincinnati capitalists might find a profitable investment, also.

Advocate a railroad from Maysville to Caney.

A few years ago, the distinguished editor of the Courier-Journal in an article in Harper's Weekly said:

No one entitled to the name of statesman would advise the precipitate substitution of "a tariff for revenue only," for the system of bounties, denominated protection, which we have maintained for a quarter of a century.

That clause of the tariff plank in the last National Democratic platform which pledged the party to revise the tariff in a spirit of fairness to all interests was as sincerely as it was unanimously adopted.

In making reductions it could be the purpose of no responsible party to ignore the industries of the country, but the rather to promote their healthy growth; and it being true that many industries have come to rely upon legislation for successful continuance, changes in our revenue laws should be, at every step, regardless of the labor and capital involved.

Mr. Watterson is now denouncing the Democratic Congress for not wiping out every semblance of protection with one stroke of the pen, and getting right down to "a tariff for revenue only." He should be a little more consistent, and remember the pledges of the party, "to revise the tariff in a spirit of fairness to all interests."

APRIL WEATHER.

What Professor Hicks Says in His Forecasts for Next Month.

In his forecasts for April, Professor Hicks says: "April will open with temperature reacting into warmer. It will be wise to anticipate hail with any well defined storm from this time to the end of April. Very warm days will usher in each regular storm period, and sudden cold is apt to bring up the rear of every general disturbance. From the 5th to the 9th falls a storm period. By that date a warm wave of marked intensity will show itself in Western parts. It will be prudent to count on general and severe disturbances from the 5th to the 9th, and to expect cold, with frost and light freezing as the storm area works Eastward of intermediate points. In the extreme East don't expect at the beginning of the period the conditions prevailing in the West, and at or before the end of the period, in the extreme West, expect just the reverse of the conditions existing at the beginning of the period. Intermediate sections, therefore, will get their storms and changes during central parts of the period."

A Maysvillian at Middlesborough.

Mr. Charles A. Wood, formerly of this city, is a candidate for County Attorney of Bell County, subject to the Republican primary on May 12. The Middlesborough News pays him a high compliment in the following words:

"Mr Wood has such an excellent reputation and is so well known in this city and throughout Bell County that to say much concerning his fitness for the position of County Attorney would be superfluous. He is a young lawyer of energy and ability and has been a resident of this city for several years. His record as a Republican and as a man is absolutely clean. Not a word can be said against him honestly in this campaign. He has a host of friends in every precinct of Bell County and will without a doubt be the nominee of the primary, and if such is the case the Republicans will have nominated their strongest man."

Charley's many friends in this section wish him success and hope to hear of his nomination on May 12.

A Wife's Narrow Escape.

Martin Welsh, agent of the C. and O. at Dayton, almost killed his wife one night this week. Welsh is subject to nightmare and at times imagines that burglars are after the road's money. On the night in question, in a dream, he imagined that the light-fingered gentry were after his money and in his sleep he took a revolver from under his bed, stood in the middle of the floor and fired a shot at what he thought was a burglar.

The explosion awakened him and upon investigation he found that he had been dreaming and that he had almost killed his sleeping wife. The bullet was found imbedded in the headboard just above her head.

A Million Friends.

A friend in need is a friend indeed, and not less than one million people have found just such a friend in Dr. King's New Discovery for consumption, coughs and colds. If you have never used this great cough medicine, one trial will convince you that it has great curative powers in all diseases of the throat, chest and lungs. Each bottle is guaranteed to do all that is claimed or money will be refunded. Trial bottles free at J. J. Wood's drug store. Large bottles 50c. and \$1.

The Modern Mother.

Has found that her little ones are improved more by the pleasant laxative, Syrup of Figs, when in need of the laxative effect of a gentle remedy, than by any other, and that it is more acceptable to them. Children enjoy it and it benefits them. The true remedy, Syrup of Figs, is manufactured by the California Fig Syrup Co. only.

Iron Mills Resume.

YOUNGSTOWN, O., March 28.—The conference committee of the Amalgamated Association and the Mahoning Valley manufacturers adopted a scale based upon a \$4 puddling rate to take effect April 1. Sixty days notice must be given if a change is wanted by either side. The mills are expected to resume at once and run steadily.

Will Some Republican Please Answer.

A bright farmer states the case thus: "Wheat fell from \$1 a bushel to 60 cents during Harrison's administration. Since then it has fallen five cents more. When Republicans explain to me why it fell 40 cents in four years, I will tell them why it has fallen 5 or 10 cents during the past nine months."—Franklin Democrat.

THE PUBLIC SCHOOLS.

Notes and Comments by Mr. George W. Blatterman, County Superintendent.

JERSEY RIDGE—DISTRICT NO. 30.

The trustees are Andrew Madden, James McHugh and Frank L. Kerr. Teacher, Mr. Clarence L. Martin. I always have found this school in a prosperous condition. The number of scholars in attendance was forty-four, which was excellent. Scholars various ages, from six to nineteen years. Mr. Martin is teaching this school the third year, and I have no doubt will be continued to the satisfaction of the patrons in this district. The school is under excellent discipline and the recitations were highly satisfactory. We had an opportunity to note the beneficial results from the use of charts, with which this school is well supplied. A class in anatomy and physiology gave a recitation with the chart upon this subject. Every question was answered promptly and correctly. I am quite certain that the scholars could not have given so satisfactory recitation from the use of the text book only after a month's study as they did from the chart, which had been in use only three days. I hope that with the beginning of next session every school in the county will be furnished with charts, maps, etc. So far seventeen districts have been supplied. The scholars were orderly and listened with attention to the address of the Superintendent. Everything indicated that this school is admirably conducted. The house is in comfortable condition, and the trustees discharge their duties faithfully.

County Court.

J. M. Ball and G. G. Killpatrick, Justices, and W. C. Pelham, Surveyor, were appointed a committee to go over the route of the proposed Salem Ridge pike and report the conveniences and benefits to be derived by the public from its construction.

The first mile of the Two Lick pike was reported completed and received, and the County Treasurer was directed to pay said company \$832.24 in part payment of the county's allowance of \$1,233.36.

Mary A. Dimmitt, guardian of Thomas O. Dimmitt and Ralph Dimmitt, filed a report of the estate of said wards.

A. R. Burgess, Jr., was appointed Deputy County Clerk and took the prescribed oath.

Sheriff Jefferson and Deputies presented a list of delinquent tithes for 1893, which was sworn to and allowed as a credit upon the tithes charged to the Sheriff for said year.

Pork Packing.

The packing returns indicate a total of about 220,000 hogs for the week, compared with 235,000 the preceding week and 150,000 for the corresponding time last year, says the Price Current. The total from March 1 is 940,000, against 560,000 a year ago—increased 380,000. At corresponding time two years ago the total was about 705,000. The offerings of hogs have been taken quite freely during the week and prices moderately advanced, closing about 15c per hundred pounds higher than a week ago on the average for Western markets, at about \$4.65 as the general average.

Property For Sale.

I will sell privately the home place of the late John McCarthy, on the south side of the Germantown pike, just outside the city limits. A good frame house and never-failing spring on the place. The lot fronts 100 feet and 8 inches, and extends back the same width 105 feet. Will be sold cheap. Apply to M. J. McCARTHY, this office.

WORKED FLEMINGSBURG, TOO.

That Smooth-Tongued Fakir Ropes in a Crowd of Fleming County Suckers.

Flemingsburg Gazette: "It must have been a true saying when Barnum said that the American people wanted to be humbugged; at least we would judge so from the way in which a swindler can come to Flemingsburg and work people out of their hard earned dollars, and give them absolutely nothing in return for their money.

"This has been done and can be repeated every court day in the year. All it takes is a blow-hard with a plug hat, good lungs and plenty of brass. He can get up in a buggy, make his little speech, and in a short time the suckers will shell out their silver dollars, and then stand around for two hours and a half expecting to get two dollars in return for one.

"This game was worked on the street Monday by a slicker, who, after getting his hat full of money, drove off and did not even pay the colored man he had holding the hat, and leaving a crowd of suckers with their hands stuck up waiting for him to return. The fool-killer, it seems, has not been around for a long time."

The BULLETIN has published several notices of the doings of this fakir, but if he should strike Maysville any day he would no doubt land about as many suckers as he has elsewhere.

DEATH OF HARRY DRESSER.

After a Heroic Battle For Life, He Succumbed to the Fell Destroyer.

The public will doubtless recall the unfortunate case of little Harry Dresser, who was operated on for brain trouble just three weeks ago to-day by Dr. Harover.

The correctness of Dr. Harover's diagnosis was confirmed in advance by the celebrated specialist, Dr. Keene, of Philadelphia, and was verified by the results of the subsequent operation.

The operation, it will be remembered, was so far successful, that the patient gave fair evidence of a speedy recovery, but the workings of God's providence are both strange and mysterious and the little fellow after a short interval of decided improvement suddenly relapsed. Brain fever and other complications set in and after a heroic battle for life the sufferer finally succumbed to the fell destroyer at 2 o'clock this morning.

Bright, happy, lovable, his congenial disposition was redolent with a constant stream of joyous sunshine. He was thirteen years of age.

A marked feature of his short, interesting life was the ardent love he bore his Sunday school. Doubtless he now sleeps in the arms of Jesus, who welcomes the approach of every child and the return of every prodigal. The bereaved family have the heartfelt sympathy of the community in their sorrow.

The funeral will occur Sunday afternoon at 3 o'clock at the family residence in Sixth ward.

A COMPANY has been incorporated to build a pike from Hebron Church to a point on the Germantown and Lowell pike near Mrs. Mary Pumpelly's residence. The new road will be a little over two miles long. They were successful, the Board deciding to make no change.

MISS SARAH BILLINGS and her sister, Miss Linda, who reside about three miles west of Winchester, Ohio, were found dead in bed early Thursday morning. One was about forty years of age and the other thirty-five. They were very well to do, but had no relatives living.

Night subject, "A Bunch of Theological Keys." God kisses the cheek of nature once in every twenty-four hours with his blessed sunshine, and folds as often the poor man's hut as well as the prince's palace in the arms of His protection. Thus He keeps saying in language not to be mutilated by the grammar of traditionalism, or spoiled by the sophisms of metaphysics, God is good! God is good! It is the one universal message that is heard in every dialect of earth, and which gives the uplook to all peoples, however rude in culture or barbarous in practice. It is the revelation of nature that has built a shrine in every valley, and that has made a temple of every mountain. The poetry of nature is as infinite in its variety as the culture of the muse who sings it.

AMERICAN SHOT IN NICARAGUA.

Critical State of Affairs Now Existing in Bluefields.

NEW ORLEANS, March 31.—The Picayune's correspondent in Bluefields, Nicaragua, sent by the steamer Bergenseln, which arrived here at 11 o'clock Thursday night, a letter conveying the startling information that the match had finally been applied to the powder magazine in the Mosquito reservation, figuratively speaking, and unless an American warship reached the scene shortly the interests of this country will suffer. The letter is dated 4:30 p. m., March 23, and says:

"News has just been received from Rama to the effect that William Wilson, an American, was shot by the governor of Rama last night without any justification therefor. Wilson died at 8 o'clock this morning. The governor, a Nicaraguan by the name of Aguilera, who is a nephew of Locayo, the commissioner, refused to let a boat leave Rama last night with Wilson, who might have been saved if brought here for treatment."

"Great excitement prevails here this evening. One shot fired here would cause the death of every Nicaraguan in Bluefields. We are anxiously awaiting the arrival of an American warship. I have no time to secure further particulars, as the vessel will leave in a moment."

"When the Canada steamed away from Pearl Lagoon, Lacayo brought 30 soldiers and several boxes of arms and ammunition from Rama. This was a direct violation of an agreement entered into by and between Lacayo and the British consul in the presence of Hon. S. C. Braid, our United States consul, that Nicaraguan soldiers would be neither brought to Bluefields nor would Nicaraguans be put on the police force during the absence of the British warship. The presence of the Nicaraguans on the river steamer necessarily created the wildest excitement. In less than 10 minutes fully 1,000 citizens, Americans and creoles, were armed with revolvers. It was a trying moment. Owing, however, to the timely action of the United States consul, who was enthusiastically supported by the American element, Lacayo was again brought to terms, binding himself this time to confine these foolish intruders to his residence quarters."

"If one shot had been fired there would not have been a Nicaraguan alive in Bluefields inside of 30 minutes thereafter, including Lacayo, who, beyond any shade of doubt, deserves to be shot for the many outrages which he has perpetrated against the inhabitants of Bluefields and the Mosquito reservation. A general meeting of the citizens was then convened at the International club, when the action of the Americans was again indorsed. The Americans will remain neutral, pending the arrival of a United States warship, unless it should become necessary to defend their homes and property."

Not Alarmed at Washington.

WASHINGTON, March 31.—Notwithstanding the report from Colon of pending trouble at Bluefields, the state department officials do not apprehend any danger to American residents or property there, and the presence of the British warship Canada, it is believed, will assure peace for the time being.

The San Francisco, with Admiral Benham on board, is expected to reach Bluefields about the middle of next week. Once on the scene, Admiral Benham probably will communicate with Minister Baker and in conjunction with him give attention to the protection of our citizens at Bluefields.

THREE MURDERERS HANGED.

All Federal Convicts, Having Committed Their Crimes in the Choctaw Nation.

PARIS, Tex., March 31.—A triple hanging took place here shortly before noon. The trio who were launched into eternity were Eduardo R. Gonzales, Manning Davis and Jim Upkins, all federal convicts, having committed their crimes in the Choctaw nation. They mounted the scaffold at 11:20 a. m. Gonzales made a short speech to the crowd, in which he declared his innocence of the crime for which he was to die. He was followed by Upkins, who also insisted that he was innocent and declared his belief that he was going straight to heaven. Davis was sullen and refused to speak.

The drop fell at 11:50 a. m. and the necks of the three men were broken by the fall. The execution was perfect and the men were pronounced dead 15 minutes after the drop fell.

The crime for which Gonzales paid the death penalty was the murder of John Daniels, a singing school teacher in Blue county, Choctaw nation, on May 10, 1893. Gonzales was a pupil of Daniels and was expelled because his fellow pupils objected to him on account of his nationality. He murdered his teacher for revenge.

Manning Davis' crime was one of the most brutal in the history of the Choctaw nation. His victim was John Roden, a neighbor. The two men were apparently the best of friends until the night of Dec. 20, 1891. That evening Manning Davis entered Roden's house and accused his neighbor of insulting his wife. Roden protested that he was innocent of the charge, but Davis drew a long knife and stabbed him to death in the presence of Mrs. Roden. Davis fled, but was captured two months later in Arkansas by Deputy Sheriff Dollarhide, who was afterward murdered by Miller Davis, a brother of Manning Davis. Miller Davis was hanged in Arkansas just two weeks before sentence was passed on his brother.

Jim Upkins was a heavy set, ginger-colored negro and was one of the most brutal looking of the African type. The crime for which he yielded up his life on the gallows was revolting in the extreme. At Ardmore, I. T., on Sept. 6, 1893, he outraged his 6-year-old stepdaughter, Mary Werden, tearing the clothes from the child's body and lacerating her person in a shocking manner.

A highly dramatic scene occurred at the examining trial. The negroes of the town organized a mob and attempted to lynch him. Judge Gibbons stepped between the prisoner and the mob and defiantly informed them that they would

have to walk over his dead body and the dead bodies of the deputy marshals before they could take the prisoner.

Another Colored Man Hanged.

UNION SPRINGS, Ala., March 31.—Israel Johnson, colored, was hanged here yesterday at noon for the murder of Wash Roberts, colored, on Jan. 15 last, by splitting his head open with an ax because he was escorting Johnson's sweetheart home from church.

Bad Accident Near "Guth's" Home.

BALTIMORE, March 31.—A special to The Sun from Middletown, Md., gives particulars of a frightful dash down South mountain of a runaway team of six horses driven by Mr. Albert Miller. The accident occurred just east of Gapland, the summer home of George Alfred Townsend. The rubber on the wagon broke, the saddle horse, a valuable animal, fell and broke his neck, throwing Mr. Miller and injuring him so that he now lies in a comatose condition with his death anticipated. All the horses were severely injured and the wagon broken to pieces.

Not Too Tall to Make Money.

CHICAGO, March 31.—At the annual meeting of the stockholders of the great Masonic temple, the architectural wonder of the world, a report was submitted showing that the floating debt has been wiped out entirely and that current earnings are at the rate of over 6 per cent on the capital stock. When the structure was erected the most astute real estate men prophesied that it would be a white elephant, and the showing made is regarded as marvelous in view of the large number of skyscrapers that have been erected since the temple was opened.

Stricken With Paralysis.

FRANKLIN, O., March 31.—Mrs. Mary V. Taylor, widow of Rev. Dr. H. W. Taylor of Walnut Hills, and who has recently been making her home at her daughter's, Mrs. Dr. F. R. Evans of this city, was seriously stricken with paralysis yesterday. Owing to her advanced age her physicians offer little hope of her recovery.

Mine on Fire.

LOUISVILLE, Colo., March 31.—The Hecla coal mine, the largest in the northern Colorado coal district, is burning fiercely in three or four places. The fire broke out two weeks ago, but was kept from the knowledge of the 150 miners until last night when an explosion occurred. Now the miners are all out, and an attempt will be made to suffocate the fire.

Good!

NASHVILLE, March 31.—The Phenix cotton mills, being reorganized Nashville cotton mills, are now in full operation, working 400 hands, and by the end of the week will have the full complement of 500 operatives at work.

On account of the State Encampment, G. A. R., at Bowling Green, Ky., April 11th, 12th and 13th, the C. and O. will sell round trip tickets from Maysville to Bowling Green at \$7.00. Tickets on sale April 10th and 11th; return limit April 15th.
